Overview

January 2022

You may not post media that is **excessively gory** or share violent or adult content within live video or in profile header, **or** List banner **images—Media depicting sexual violence and/or assault is also not permitted.**

People use Twitter to show what's happening in the world, often sharing images and videos as part of the conversation. Sometimes, this media can depict sensitive topics, including violent and adult content. We recognize that some people may not want to be exposed to **sensitive content, which is why we balance** allowing people to share this type of **media with helping people who want to avoid it** to do so.

For this reason, you can't include **violent, hateful, or adult content within** areas that are highly visible on Twitter, including in **live video, profile, header, or** List banner **images**. If you **share this content on Twitter, you need to** [mark your account as **sensitive**](<https://web.archive.org/en/rules-and-policies/media-settings.html>). **Doing so places images and videos behind an** interstitial (or warning message), **that needs to be acknowledged before your** media can be viewed. Using this **feature means that people who don't want to** see sensitive media can avoid it, **or make an informed decision before they** choose to view it. We also restrict **specific sensitive media, such as adult content, for viewers who are under 18 or viewers who do not include a birth date on their profile. Learn more about age-restricted content**

[here](<https://web.archive.org/en/rules-and-policies/notices-on-twitter.html>).

Under this policy, there are also some types of sensitive media content that we don't allow at all, because they have the potential to normalize violence and cause distress to those who view them.

We group sensitive media content into the following categories:

Graphic violence

Graphic **violence** is any media that depicts death, violence, medical procedures, or serious physical injury in graphic detail. Some examples include, but are not limited to, depictions of:

- violent crimes or accidents;
- physical fights;
- physical child abuse;
- bodily fluids including blood, feces, semen etc.;
- serious physical harm, including visible wounds; and
- severely injured or mutilated animals.

Note: exceptions may be made for documentary or educational content.

Adult content

Adult **content** is any consensually produced and distributed media that is pornographic or intended to cause sexual arousal. Some examples include, but are not limited to, depictions of:

- full or partial nudity, including close-ups of genitals, buttocks, or breasts (excluding content related to breastfeeding);
- simulated sexual acts; and
- sexual intercourse or other sexual acts – this also applies to cartoons, hentai, or anime involving humans or depictions of animals with human-like features.

Note: exceptions may be made for artistic, medical, health, or educational content.

For content that was created or distributed without the consent of those featured, please refer to our [non-consensual nudity policy](<https://web.archive.org/en/rules-and-policies/intimate-media.html>).

Violent sexual conduct

Violent sexual conduct is any media that depicts violence, whether real or simulated, in association with sexual acts. Some examples include, but are not limited to, depictions of:

- sexualized violence – inflicting physical harm on an individual within an intimate setting, where it is not immediately obvious if those involved have consented to take part.

Gratuitous gore

Gratuitous gore is any media that depicts excessively graphic or gruesome content related to death, violence or severe physical harm, or **violent** content that is shared for sadistic purposes. Some examples include, but are not limited to, depictions of:

Adult Content

May 2024

You may share consensually produced and distributed adult nudity or sexual behavior, provided it's properly labeled and not prominently displayed.

We believe that users should be able to create, distribute, and consume material related to sexual themes as long as it is consensually produced and distributed. Sexual expression, whether visual or written, can be a legitimate form of artistic expression. We believe in the autonomy of adults to engage with and create content that reflects their own beliefs, desires, and experiences, including those related to sexuality. We balance this freedom by restricting exposure to Adult Content for children or adult users who choose not to see it. We also prohibit content promoting exploitation, nonconsent, objectification, sexualization or harm to minors, and obscene behaviors. We also do not allow sharing Adult Content in highly visible places such as profile photos or banners.

How we define Adult Content

Adult Content is any consensually produced and distributed material depicting adult nudity or sexual behavior that is pornographic or intended to cause sexual arousal. This also applies to AI-generated, photographic or animated content such as cartoons, hentai, or anime. Examples include depictions of:

- full or partial nudity, including close-ups of genitals, buttocks, or breasts;
- explicit or implied sexual behavior or simulated acts such as sexual intercourse and other sexual acts.

What is in violation of this policy?

Our aim is to limit exposure to sensitive images and videos and to prevent the sharing of potentially disturbing types of sensitive media. For this reason, we differentiate our enforcement approach depending on the type of media that has been shared and where it has been shared.

Graphic violence, adult content, and hateful imagery

• you can't target people with unsolicited images or videos that contain graphic violence, adult content, or hateful imagery; and

• you can't include graphic violence, adult content, or hateful imagery within live video, profile, header, or List banner images.

Violent sexual conduct and gratuitous gore

For these reasons, you can't share images or videos that depict violent sexual conduct or gratuitous gore on Twitter.

Note: very limited exceptions may be made for gory media associated with newsworthy events.

What is not a violation of this policy?
